Golden Rams Turned Tables On The Trojans

By Score of 1 to 5

Some three weeks ago, at the close of the high school basketball season, Lake Worth and the Rams met in a nip-and-tuck game in which Jacobs and Williams put on a burlier's battle which was won by the Trojans by a score of 1 to 0, the winning coming in an error by Belle. These same teams met at the Trojan field, last Friday, and another closely played game, this time the Rams scored a victory by the score of 5 to 1.

The same battery boys fought it out again, but this time Jacobs was wild and granted six bases on balls which figured materially in the Rams' victory. Catch twirler gave up five singles. Jacobs struck out a dozen of the Rams and Williams hit for six whiffers.

The Rams have won five of their last six games and in 1947 College, seminary, hospitals, benevolent institutions and mission work in a score of countries bear testimony to their united work in fulfilling the Great Commission.

Two of the bills would set up new hospital zone districts to be known as the North east and West Hospital district. The former being for Pahokee operation and the other for Belle Glade.

Pahokee has already bonded itself for raising funds for its new institution, but Belle Glade the former Migratory hospital. The two hospitals under the bills would be operated separately, rather than jointly as in the past.

In setting up its boundary district, in order to secure larger money income, Pahokee came down right to the city line of Belle Glade, and took in much of the valuable improved property of the city.

Twenty mile bend. This brought strong protest from Belle Glade and some of the local farmers. Partial reorganization of the proposed territory was arrived at, and the boundaries were set up under the new legislative bills.

The Southern Baptist Convention is one of the most uniquely organized groups in the world. The Convention is constituted of "messengers" rather than "delegates" from churches, in that no one carries authority to bind his congregation back home to the decisions of the Convention.

The Convention is purely one of cooperation, with evangelistic, educational, and benevolent activities planned in accordance with a New Testament teaching, and the churches left free to cooperate or not cooperate as they choose.

That the churches do choose to cooperate is evidenced by the fact that their gifts to the Convention's worldwide program totaled \$8,865,000 in 1947. Colleges, seminaries, hospitals, benevolent institutions and mission work in a score of countries bear testimony to their united work in fulfilling the Great Commission.

Two of the bills would set up new hospital zone districts to be known as the North east and West Hospital district. The former being for Pahokee operation and the other for Belle Glade.

Pahokee has already bonded itself for raising funds for its new institution, but Belle Glade the former Migratory hospital. The two hospitals under the bills would be operated separately, rather than jointly as in the past.

In setting up its boundary district, in order to secure larger money income, Pahokee came down right to the city line of Belle Glade, and took in much of the valuable improved property of the city.

OBSERVATIONS

Continued from page 1
le Glade, with quietude, as their past word, eat this soil in soup form, like it, live cheap and are happy. One such claim to be more than 100 years old and expects to live much longer, caused by the absorbing the important life of the California Redwood trees, that never die, by drinking tea made from their leaves.

On Sunday in our church and our homes we will be honoring "mothers" with our gifts of alive, and if not, then our memories to the greatest woman that ever lived. I shall be wearing a white flower in memory of my mother, long gone to her eternal home.

Birthdays do come to people, and the calendar of last Sunday, the first day of May, brought home to me that I had passed another natal day, which numbered 78 and that I was working and living on borrowed time. Fifty eight of those years have found me working at a newspaper writer's desk pounding out copy for my publications. Car loads of copy paper have been filled with the products of my brain, be what they may. That life has been full of activities, and one that the writer has thoroughly enjoyed. The records of the Florida Press Association show that I am accredited with being the oldest active newspaper man in the state as to service. Well the day is coming when the too mysterious "30" will be written on the bottom of my copy and my life.

The Masons and Eastern Stars are to enjoy a banquet at the Legion hall on Friday night, May 27th when they will be eating turkey and dressing. This is the first function of its kind for these groups since mid-war days. A prominent reason is to be procured for the program hour.

Government officials from the U. S. Department will soon hold the annual conference in Clewiston, which relates to be paid to sugar field laborers, and to the contract growers for their cane raised for the corporation, 1948-50.

That proposed memorial room at the Belle Glade Memorial hospital to the memory of the late Dr. William J. Buck, is a fitting one. Medicine and surgery was his profession and both of these he gave freely to

the populace of the Glades area, along with much undercover charity gifts. He had a great love for the hospital in which this memorial will be found, and it will help keep green the memory and service of one who did and meant, so much to this region in its pioneer and disaster periods.

Many of our local hunters, who for years have hunted in the territory of the Big Cypress swamp and woodland territory, have known about Tarpon Lake, which is hid deep in the almost inaccessible portion of one of these lakes. This lake is small but mighty deep, and is surrounded by a perpendicular wall of solid rock. By fishing deep fine edible fish are to be caught from its waters. Deep Lake is another water hole of like character which is more accessible to sportsmen and more frequently fished. Both of these lakes are known for the number of alligators which make their home in them. There are many wild birds and animals for the staff, reptiles and wild game in the land of Silver Springs, recently made a scientific safari into portions of the Glades which few men have visited. They carried back with them snakes, birds and animals for the study and experimental purposes.

Dates set for the spring reunion of Lake Worth Consistory of the Scottish Rite, at Lake Worth, have been fixed for Saturday and Sunday, May 13-14, 20-21. These reunions are very important ones for the Masons of the district.

Our city commission is planning on adopting an ordinance, which will prohibit the use of a white cane, which is an emblem which shows that the user is a blind man.

The west end of the city is to have a new paved street which leads from the canal road southward through the Lloyd and Mosely lands. The land owners presented the city with quit claim deeds for land to make a 50 foot street. This street will be a short cut for packing houses and school children to get to the new school building. Other easements are being sought for the opening of another like street in that vicinity.

Raders, Inc., through its agent Mr. Friday, told the city commission, that his company was continually working on the improvement of its rental proper-

ties, and that building permits amounting to over \$3,000 had been taken out through the inspector's office in the past few months. That improvement on present merchandise buildings and some new construction on Ave. A was in contemplation for the summer.

The Board of Public Instruction is not the only body which has to expend large sums of money for the new colored elementary school now under construction. The city provides the school with public facilities, such as water, light and power, streets, fire hydrants.

The City of Belle Glade, will expend a sum that may exceed \$50,000. It would cost more if city prison labor was not used in the labor program. Water mains alone will cost around \$9,000. The city has placed an order for the six and eight inch pipes for mains which will be installed. Much of the territory now without water or fire services will be able to have it with the water extension is completed.

Mrs. C. W. McDonald, the efficient park director, is not only caring for the parks in a fine manner, but she is also giving afternoon play hours to children, and with the increasing groups coming after school hours for recreation, she sure has a full job. She has asked, and the commission has granted, that when school is out, she will be given an assistant to have charge of the play ground supervision.

When Rep. E. Elliott takes the Gavel of the House in the State Legislature in 1951, he ought to be able to look out for the legislation which comes up that effects this Glades Area. The position awarded him is indeed a high honor, one that any man should appreciate even though it does entail a mountain load of duty.

A check up on our vegetable movement around the lake for the year does not give such a discouraging view, for summary of car load movements show that 7200 cars have gone out at the end of the past week, which is a record for the year. For all of 1947, indications are that the total shipment for the season may reach close to the 8500 mark. In addition to this must be added volume equal to several thousands of cars, which has gone out by truck. Shippers state, truckers have never previously enjoyed this crop. This crop of vegetables is the more wonderful because our vegetables were raised without rain, and only by drainage canal absorption thru the mole drains.

Here is the story of a poor taxpayer, who lets out a wall of woe about a notice he received from the Internal Revenue office:

Replying to your request to send a check, I wish to inform you that the present condition of my Bank Account makes it almost impossible. My shattered financial condition is due to Federal laws, State laws, County laws, City laws, Corporation laws, Liquor laws, Mothers-in-law, Sisters-in-laws and out-laws.

Through these laws I am compelled to pay a Business tax, Sales tax, Carpal tax, Thumb tax, Income tax, Food tax, Furniture tax, Exercise tax, and even my brains are taxed.

I am required to get a Business license, Car license, Truck license, not to mention a Marriage and Dog license.

I am also required to contribute to every society and organization which the genius of man is capable of bringing to life; to Women's Relief, Unemployment Relief, and the Gold Diggers Relief. Also to every Hospital and charitable institution in the city, including the Red Cross, Black Cross, Purple Cross, and Double cross.

For my own safety I am required to carry Life Insurance, Accident Insurance, Property Insurance, Liability Insurance, Burglar Insurance, Unemployment Insurance, Old Age Insurance, and Fire Insurance.

My business is so governed that it is no easy matter for me to find out just who owns it. I am inspected, expected, suspected, disrespected, rejected, dejected, examined, re-examined, informed required, summoned, fined, commanded and compelled until I provide an inexhaustible supply of money for every known need, desire or hope of the human race.

Simply because I refuse to donate to something or other, I am boycotted, talked about, lied about, held up and held down and robbed until I am almost ruined.

I can tell you honestly that except for the miracle that happened I could not smoke this check; The wolf that comes to many doors now days, just had pups in my kitchen—I sold them and here is the money!!! Yours gratefully, grudgingly and grudgingly.

Joe Friedheim Sues C. A. Revels For A Business Accounting

A suit for a business accounting was filed in Circuit court in West Palm Beach, wherein Joe Friedheim asks for C. A. Revels of Lake Harbor, doing business at the Keene Packing Co., to make an accounting of their business relations, and the setting up the plaintiff's rights in grown crops raised by the use of the plaintiff's farm equipment. Friedheim claims that Revels has refused to cut him in as partner in the sharing of crop profits.

Stuart Wins Its Sixth Game At The Expense Of The Local Independents

The strong baseball aggregation known as the Saltibers of Stuart was the opponent of the Belle Glade Independents at Memorial Field, last Sunday afternoon. They came to the league leaders and went home with another victory for their win column. Six wins against no losses. The score 8 to 4.

Manager Dorsey Pugh in looking over his twirling talent gave the nod to Joe Cherry, and for his first start of the season he did most creditable work, considering that the Stuart team is made up of a strong cloture aggregation. Against Arnold, the crack Stuart pitcher, our lads were not at all formidable at the bat, although Harrell did get hold of one of his offerings and cracked it out for a home run, which made the score picture for the Independents look a bit better.

On next Sunday, the Independents will visit Okeechobee to go up against the Catfish nine for the fourth time this season, and as Okeechobee has not been showing much strength, this should be another victory.
